

## Ideation Phase

### Problem Statements and Ideation Phase

Date	16 October 2022
Team ID	PNT2022TMID2142
Project Name	Project – Detection pf Phishing Websites
Maximum Marks	2 Marks

#### Customer Problem Statement Template:

As online transactions grew in popularity, cybercrimes also grew quickly. Because of the anonymity offered by the internet, hackers try to trick users by using techniques like phishing, SQL injection, malware, man-in-the-middle attacks, domain name system tunnelling, ransomware, web trojans, and other forms of attack. Phishing is said to be the most misleading of all of these tactics.
